Talk on Missions

The First Christian church will feature the services on Sunday evening by an illustrated sermon on "A Trip Through the Mission Fields of America." About sixty beautiful illustrated slides will be used to bring out the work being done in America at the different Mission Stations. At the same time the dire need of the thought, efforts and money of Christendom to effectually propagate the missionary work will be emphasized. The sermon will embrace "The Organization of American Missions," "The appeal of the growing West," "The appeal of the East," "The East Orange church," of New Jersey. "Opportunities in Canada and the church at Winnipeg," "R. B. Neal in the mountains of Kentucky," "Chicago and its Coal Pickers," showing the children earning a livelihood by pick-

ing coal. This will be an extremely interesting, instructive as well as pathetic scene.

"The mission where 'Billy Sunday was converted.' Mr. Sunday is a preacher of renown, and it will be quite pleasing to view the place where he gave his heart and life to Christ. "L. R. Patterson, the kidnapped prohibition worker." The story of Mr. Patterson's unusual career has been published in many papers all over the United States, and is a subject of today. All America has heard of Mr. Patterson within the past few weeks, and this scene will be quite interesting to all. This sermon will close the evening services at the church during the remainder of August, as Mr. Lenox will leave on his annual vacation on Monday, accompanied by Mrs. Lenox, and son, Walter.

Pensacola Equal Suffrage League to Celebrate Sacrifice Day

The Pensacola Equal Suffrage League will celebrate "Sacrifice Day," and by this means hope to raise a fund to be sent to the National Association to aid in the campaigns being waged in the six states now fighting for the franchise the Dakotas, Montana, Nevada, Nebraska, Missouri and Ohio.

Dr. Anna Howard Shaw, president of the American Woman's Suffrage Association, has proclaimed August 15 as "Sacrifice Day," when suffragists throughout the country are to throw their most valued trinkets into the

melting pot "for the good of the cause."

August 15 was set aside, because it is Lucy Stone's birthday. She is a pioneer suffragist. Also because it is ladies' day in the Roman Catholic church, of which many suffragists are members. The money raised in this way will go to help in the campaigns that are being waged in six states for equal suffrage.

In order to stimulate interest in the event Dr. Shaw, president of the association announced that she would present to the woman suggesting the sacrifice of greatest benefit to the cause a needle book made from the garnet velvet dress worn for years by the late Susan B. Anthony. Should the best suggestion come from a man Dr. Shaw will present him a pin cushion made from the same material.

The idea of a "self-denial" day was inaugurated by the Chicago Herald which called upon all sympathizers of the movement to add the western campaign by subscriptions, the donation of jewelry or by giving their time.

"If Chicago can think up a thing like that New York and the country can surely go one better," said Dr. Shaw today. "So I determined to inaugurate a national 'self-denial' day, discovered that there are still to be had some of the pin cushions and needle books made from Miss Anthony's dress."

The dress from which the prizes were made has a notable history. It was made in 1883, at the time Miss Anthony was presented at court to Queen Victoria.

She later wore it on all state occasions up to the time of her death, altering it as the styles changed.

The call for "self-denial" day directs attention to the fact that the campaigns in the Dakotas, Montana, Nevada, Nebraska, Missouri and Ohio are now waging and that money is imperative to carry on the fight. Miss Jane B. Addams of Chicago, will be treasurer of the fund. Contributions are to be sent to the campaign committee in Chicago or to the headquarters of the association in New York.

ANNOUNCE THE BIRTH OF A DAUGHTER.

THE WOMAN-TAMER.

He said: "She shall be my slave! Lesser in all than I; Feeble of body and brain. She shall carry golden chain. And dwell until she die In the golden cage I gave."

And he found a treacherous creature of hate and fear, With teeth and claws that were ready when he came near!

He said: "She shall be my star! I will set her high above This dusty world of mine I will bow me down at her shrine, Pray for the light of her love, And worship her from afar."

But he found that light of her love had been withdrawn, Leaving only a faint chill, a faint chill across

He said: "She shall be my friend! Side by side let us stand, For I need your help and you Comrades tried and true, With my hand in your dear hand We will see life out to the end."

And she turned and her eyes met his and I think she cried (But she laughed through her tears) and she came to her place at his side.

From "The Englishwoman."

Not So Strange After All.

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not, however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally. NEW ORDER THE OUTCOME OF THE CUSTOMS FIGHT

PRESIDENT WILSON IS AUTHORIZED TO NAME COLLECTION DISTRICTS IN FLORIDA AND ELSEWHERE.

As a result of the recent agitation for the removal of the customs district to Tampa, or else to create two or more in the state of Florida, a provision has been incorporated in the appropriation bill which gives the president the authority to name the collection districts, which are not necessarily to be confined to state boundaries. This port may be concluded in a district with headquarters in another state, if such seems feasible, and the local customs officers are of the opinion that once reorganization is attempted, that Pensacola will be attached to one of the larger districts in some adjoining states, quite out of the state of Florida.

The new order covering the collection districts as incorporated in the appropriation bill reads as follows:

The New Order.

"The president is authorized from time to time as the exigencies the service may require, to rearrange, by consolidation or otherwise, the several customs collection districts and to discontinue ports of entry by abolishing the same or establishing others in their stead; provided, that the whole number of customs collection districts, ports of entry, or either of them, shall at no time be made to exceed those now established and authorized except as the same may hereafter be provided by law; provided further, that hereafter the collector of customs on each customs collection district shall be officially designated by the number of the district for which he is appointed and not by the name of the port where the headquarters are situated and the president is authorized from time to time to change the location of the headquarters in any customs collection district as the needs of the service may require; and provided further, that the regular shall, at the beginning of each regular session, submit to congress a statement of all acts, if any, done hereunder and the reason therefor."

The Twenty Year Test.

"Some twenty years ago I used Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Geo. W. Brock, publisher of the Enterprise, Aberdeen, Md. "I discovered that it was a quick and safe cure for diarrhoea. Since then no one can sell me anything said to be 'just as good.' During all these years I have used it and recommended it many times, and it has never disappointed any one." For sale by all dealers. (Adv.)

STRIKE ORDER ISSUED; MEN TO GO OUT AUG. 7

FIFTY-FIVE THOUSAND ENGINE MEN VEST OF CHICAGO ARE INVOLVED.

BY ASSOCIATED PRESS.
Chicago, Ill., July 31.—A strike of fifty-five thousand engineers and firemen, employed by ninety-eight railroads west of Chicago has been set for August 7, when the men will quit work unless satisfactory terms of settlement have been arranged in the meantime, which is considered improbable.

The wage dispute between the engineers of the western railroads and their employers reached a critical stage July 16, 1914, when, having failed to come to an understanding, the union chiefs and the managers' committee suspended negotiations and the labor leaders informed the managers that notice of a strike would be served immediately.

The men's original demands have been presented October 10, 1913, as negotiations had been going on about three months. Two days later, however, both sides agreed upon federal arbitration although the engineers previously had refused peremptorily to consider it on the ground that the roads had refused to be governed by former arbitration court decisions.

Matters with the men had proceeded to the taking of a strike vote the result of which, announced July 14, showed that the men were almost unanimously in favor of backing their demands by a general walk-out. Basing their demand on the increased cost of living, the men called for increases in pay and overtime allowances, which they said, would just about cover the advance in the price of necessities in the past four years. In answer the roads declared the increases asked for would amount to \$33,000,000 a year or a fifty per cent advance in wages and could not be granted.

Ninety-eight railroads were affected by the demands. They included virtually every line in the United States west of Chicago and also the Illinois Central road. In Canada every line west of Port William, Ontario, was affected except the Grand Trunk Pacific. One hundred and forty thousand miles of roadway and 55,000 engineers, firemen and hostlers drawing \$67,750,000 annual wages were affected.

RAT CATCHERS FELL SHORT OF USUAL RECORD

BUT SEVENTY-FIVE WERE DELIVERED TO LABORATORY YESTERDAY, THE LOWEST NUMBER IN SOME DAYS.

But seventy-five rats were delivered to the laboratory at the city hall yesterday, this being the smallest number returned there since the eradication of the pest started actively in Pensacola.

Various reasons were assigned for the big falling off in rat receipts, one being that the anxiety of many to trap the rodents has induced many persons to penetrate into the "living places" of the rats, and has thereby frightened them off altogether or else has had the effect of causing them to change their habitation for the time being.

Mayor Greenhut stated that the activity of the rat trappers would be again in evidence shortly, as the city would, in a few days, have several dozen traps to distribute for temporary use, and it is possible that another consignment to reach here shortly will be purchased by the city and used in ridding the city of the disease breeders.
